What's special about these books?

- Vibrant, colorful covers and stimulating interior design capture attention.
- Popular, friendly characters – dinosaurs, friendly-looking monsters, unicorns, astronaut – draw interest.
- Lively text invites participation.
- Tips, instructions, prompts, encouragement, and questions enrich the creative experience.
- Parent/caregiver Learning Guide explains how the books help develop literacy skills and how to support the child in using the book.

How do these books help children?

- Encourage planning and research which contributes to the development of critical thinking skills.
- Encourage exploration of feelings which promotes emotional intelligence.
- Provide ample opportunities for fostering problem-solving skills.
- Creating their own book builds both self-confidence and self-esteem.
- Contribute to the development of fine motor skills and hand-eye coordination.
- Stimulate use of memory skills.
- Generate further interest and enthusiasm for creative storytelling.

What opportunities do these books offer for the parent/caregiver?

- To strengthen the child/caregiver bond.
- To build the child's oral language skills.
- To encourage the child's imagination and creativity.
- To foster enthusiasm for a new endeavor.
